"I can't even begin to say what I'm feeling... walking out of that room changed my perspective on drugs. I can't put in words how much I got out of that talk. You were definitely not an "average speaker on drugs." You were so awesome. Your story was an incredible experience and I will never forget it." - **Student, Emory University**

"You stand out from other drug and alcohol programs: the energetic way you present your story captures and engages the audience the entire time. Our students appreciated the fact that you did not lecture them or tell them not to drink, but you encouraged them to "Party with a Plan." - **Brandi Rideout, Director of Student Athlete Services, University of Maine**
